## **Degree Program Student Learning Report**

**Revised November 2019** 

## **Department of Technology and Justice Studies**

## **AA in Criminal Justice Studies**

For 2023-2024 Academic Year

# PART 1 Degree Program Mission and Student Learning Outcomes

**A.** State the school, department, and degree program missions.

University Mission	School Mission	Department Mission	Degree Program Mission
Our mission is to ensure students develop the skills and knowledge required to achieve professional and personal goals in dynamic local and global communities.	The mission of the School of Professional Studies (SPS) to develop students' skills and knowledge so they can successfully perform in their professional career of choice, and to prepare them to be lifelong learners in a diverse society. This is accomplished in a positive academic climate which is supported by academic and intellectual freedom, and faculty who are dedicated to a quality educational experience.  Curricula for the associate, bachelors and graduate degrees are developed by expert faculty who are dedicated to an excellence in teaching, research and university service. The programs in the SPS are dynamic, and foster student achievement of their personal and professional goals reflective of their field of study. Innovative teaching strategies are used	The mission of the Department of Technology and Justice Studies is to support the SPS and RSU in their mission to prepare students to achieve professional and personal goals in dynamic local and global communities.	The Associate in Arts in Criminal Justice Studies degree has been designed for individuals seeking a career in one of the components of the criminal justice system such as law enforcement, prosecution, or corrections. Hence, this degree has been structured to prepare criminal justice professionals to operate effectively within today's legal environment balancing individual rights with the protection of society, interacting with a culturally diverse community, and protecting the public from increasingly complex threats.

**B.** Align school purposes, department purposes, and program student learning outcomes with their appropriate University commitments.

University Commitments	School Purposes	Department Purposes	Student Learning Outcomes
To provide quality associate, baccalaureate, and graduate degree opportunities and educational experiences which foster student excellence in oral and written communications, scientific reasoning and critical and creative thinking.	The SPS provides this support by providing two-year and four-year educational opportunities in business, sport management, technology, justice studies, nursing, and emergency medical services	The Department of Technology and Justice Studies provides the technology course support for the Associate in Science and Associate in Applied Science degrees, as well as the Bachelor of Science in Business Information Technology, the Bachelor of Science in Game Development, and the Bachelor of Technology in Applied Technology. The department also offers a Bachelor of Science in Justice Administration and an Associate in Arts degree in Criminal Justice with options in Law/Justice and the Collegiate Officer Program (COP). As indicated, many of the programs offered by the Department of Technology and Justice Studies are available online.	1. Demonstrate a written and oral ability to think critically.  2. Understand and apply relevant legal and criminal justice concepts.
To promote an atmosphere of academic and intellectual freedom and respect for diverse expression in an environment of physical safety that is supportive of teaching and learning.			
To provide a general liberal arts education that supports specialized academic programs and prepares			

University Commitments	School Purposes	Department Purposes	Student Learning Outcomes
students for lifelong learning and service in a diverse society.			
To provide students with a diverse, innovative faculty dedicated to excellence in teaching, scholarly pursuits and continuous improvement of programs.			
To provide university-wide student services, activities and resources that complement academic programs.			
To support and strengthen student, faculty and administrative structures that promote shared governance of the institution.			
To promote and encourage student, faculty, staff and community interaction in a positive academic climate that creates opportunities for cultural, intellectual and personal enrichment for the University and the communities it serves.			

# PART 2 Revisit Proposed Changes Made in Previous Assessment Cycle

Revisit each instructional/assessment change proposed in Part 5 of the degree program SLR for the preceding year. Indicate whether the proposed change was implemented and comment accordingly. Any changes the department implemented for this academic year, but which were not specifically proposed in the preceding report, should also be reported and discussed here. Please note if no changes were either proposed or implemented or this academic year.

Proposed Change	Implemented? (Y/N)	Comments
None		

# PART 3 Response to University Assessment Committee Peer Review

The University Assessment Committee provides written feedback on departmental assessment plans through a regular peer review process.

This faculty-led oversight is integral to RSU's commitment to the continuous improvement of student learning and institutional effectiveness. UAC recommendations are not compulsory and departments may implement them at their discretion. Nevertheless, respond below to each UAC recommendations from last year's peer review report. Indicate whether the recommendation was implemented and comment accordingly. Please indicate either if the UAC had no recommendations or if the program was not subject to review in the previous cycle.

Peer Review Feedback	Implemented (Y/N)	Comments
SLO #2 please provide both pre and post-test data and subsequent comparison data.	Y	

# PART 4 Evidence of Student Learning

Evidence and analyze student progress for each of the student learning outcomes (same as listed in Part I B above) for the degree program. See the *Appendix* for a detailed description of each component. <u>Note</u>: The table below is for the first program learning outcome. Copy the table and insert it below for each additional outcome. SLO numbers should be updated accordingly.

	A. Student Learning Outcome					
SLO #1: Demons	trate a written and	l oral ability to thin	k critically and cre	atively		
B. Assessment Measure	C. Performance Standard	D. Sampling Method	E. Sample Size (n)	F. Results	G. Standard Met (Y/N)	
The measure of achievement of this SLO will be through a:  1. Written Paper 2. Oral Presentation	80% of AACJS students completing CJ 1213-Introduction to Criminal Justice and CJ 2343 Community	All CJ 1213 Introduction to Criminal Justice and CJ 2343 Community Relations will complete the written paper	CJ 1213 Spring 2024 (n)=11	CJ 1213 Spring 2024 Paper &  PowerPoint Presentation  ≥ 90% 7/11  80-89% 1/11  70-79% 2/11  60-69% 1/11  < 60%  n=11	Yes	

SLO #1: Demonstrate a written and oral ability to think critically and creatively

B. Assessment Measure	C. Performance Standard	D. Sampling Method	E. Sample Size (n)	F. Results	G. Standard Met (Y/N)
	Relations will demonstrate proficiency (70%) in in a rubric graded 1. Written Paper and 2. PowerPoint Presentation	and PowerPoint presentation.	CJ 2343 Spring 2024 (n)=25	(90% scored 70% or more) CJ 2343S Spring 2024 Paper & PowerPoint Presentation ≥ 90% 12/25 80-89% 6/25 70-79% 2/25 60-69% 0/5 < 60% 5/5 n=25 (20/25 or 80% scored 70% or above) Note: 5 students did not submit the assignment	Yes

- a. The AACJS students exceed the proficiency standard that 80% of the students will score ≥ 70%. In CJ 1213 (11) students submitted the assignment, 90% scoring 70% or above. In CJ 2343, (20) students submitted the paper and PowerPoint assignment scoring 70% or above (80%). Five students did not submit the assignment. This may be a result of student anxiety concerning research, writing and presentation.
- b. The students are provided detailed instructions concerning the requirements of the assignments and are advised in the course assignment of resources available both at the RSU Library and the Writing Center. Several students took advantage of the help available as evidenced by reports from the Writing Center and the Research Librarians.

SLO #2: Understand and apply relevant legal and criminal justice concepts.

B. Assessment Measure	C. Performance Standard	D. Sampling Method	E. Sample Size (n)	F. Results	G. Standard Met (Y/N)
1. Pretest and Post-test Examination	80% of AACJS students completing CJ 1113- Introduction to Criminal Justice demonstrate proficiency (70%) proficiency in	All AACJS students completing CJ 1113- Introduction to Criminal Justice will be evaluated by taking a pretest and a post-test	CJ 1113 Spring 2024 Pretest (n)=19	CJ 1113 Spring 2024 Pretest  ≥ 90% 0/19  80-89% 1/19  70-79% 5/19  60-69% 4/19  <60% 0/19  n=20  6/19 or 32% of students who took the pretest scored 70% or above	No
	applying relevant legal and criminal justice concepts upon completion of a pretest and a post-test		CJ 1113 Spring 2024 Post-test (n)=20	CJ1113 Spring 2024 Post-test ≥ 90% 1/20 80-89% 15/20 70-79% 4/20 60-69% 0/20 < 60% 0/20 n=20 (20/20 or 100% students scored 70% or above on the Post-test)	Yes

SLO #2: Understand and apply relevant legal and criminal justice concepts.

B. Assessment Measure	C. Performance Standard	D. Sampling Method	E. Sample Size (n)	F. Results	G. Standard Met (Y/N)
	CJ 1213 Introduction to Corrections will demonstrate proficiency (70%) proficiency in applying relevant legal and criminal justice concepts upon completion of a pretest and a post-test	CJ 1213 Introduction to Corrections will be evaluated by taking a pretest and a post-test	CJ 1213 Spring 2024 Pretest (n)=11  CJ 1213 Spring 2024 Post-test (n)=12	CJ 1213 Spring 2024 Pretest  ≥ 90%	No

# H. Conclusions

All students in **CJ 1113 Introduction to Criminal Justice** and **CJ 1213 Introduction to Corrections** were assigned to take a **pretest** the first or second day of class, and a **post-test** at the end of the semester.

**CJ 1113 2024 pretest**: 6 out of 19 students who took the **pretest** scored 70% or above resulting in **32%** of students scoring at or above 70%. The low pretest scores are presumed to be due to students having little previous exposure to criminal justice.

**CJ 1113 2024 posttest** score resulted in improved performance with **20 out of 20** or **100%** of the students who took the **posttest** scored 70% or above. This increase may be attributed to improved participation in class and personal interaction with the instructor. The increased scores in the posttest indicate students gained knowledge during the course.

SLO #2: Understand and apply relevant legal and criminal justice concepts.

В.	C.	D.	E.	F.	G.
Assessment	Performance	Sampling	Sample	Results	Standard
Measure	Standard	Method	Size (n)		Met (Y/N)

CJ 1213 2024 pretest: 5/11 or 45% of students scored at or above 70% (all students took the pretest)

**CJ 1213 post-test:** 11 out of 12 or **92%** of the students who took the posttest scored 70% or above. The increase in the posttest scores indicates students gained knowledge during this course. Additionally, many students had already completed CJ 1113 in an earlier semester, possessing some knowledge in CJ, and were more acclimated to the on-line weekly assignments and classroom interaction.

**Note:** The Council on Law Enforcement Education & Training (CLEET) is the state agency mandated by the State of Oklahoma Law to certify education, training and the certification of peace officers (police, sheriffs, state police). Applicant officers must pass the CLEET Certification Exam prior to being commissioned by a law enforcement agency to serve as peace officers. The use of **CLEET 2023 certification data** is presented to demonstrate the success of the AA/CJS and BSJA COP Option passing the CLEET Certification Exam. Students graduating from the 2023-2024 school year will not be eligible to take the CLEET Peace Officer Certification Exam until October 2024 and outside the due date for this SLR assessment of student learning. Therefore, it is useful to consider the COP Option graduates from the preceding summer **2022-2023** in demonstrating success of the CJ program.

#### Measure of Student Success 2022 CLEET Peace Officer Certification Exam

At the time of this report, (2) 2022-2023 COP Option students graduated in 2023. (2) students have passed the CLEET Peace Officer Certification Exam (Council on Law Enforcement Education and Training) with a minimum 80% proficiency; both students passed with **96% proficiency**. Previous graduates have been hired by Tulsa Police Department; the Broken Arrow Police Department, the Jenks Police Department; the Osage County Sheriff's Office, the Tulsa County Sheriff's Office, Owasso Police Department, and Sand Spring Police Department.

All RSU graduates since 2017 have passed the CLEET Exam with a minimum of 80% proficiency are then qualified to be certified as Peace Officers in the State of Oklahoma and eligible for employment as Oklahoma law enforcement. The RSU AA and BSJA COP Option students continue to be very successful passing the CLEET Peace Officer certification exam (100%) and becoming eligible to be employed in their major field of study.

# PART 5 Proposed Instructional or Assessment Changes

Learning outcomes assessment can generate actionable evidence of student performance that can be used to improve student success and institutional effectiveness. Knowledge of student strengths and weakness gained through assessment can inform faculty efforts to improve course instruction and program curriculum. Below discuss potential changes the department is considering which are aimed at improving student learning or the assessment process. Indicate which student learning outcome(s) will be affected and provide a rationale for each proposed change. These proposals will be revisited in next assessment cycle.

Proposed Change	Applicable Learning Outcomes	Rationale and Impact

# PART 6 Summary of Assessment Measures

- **A.** How many different assessment measures were used? 3 measures were used.
- **B.** List the direct measures (see appendix): Pretest-Posttest, written and oral presentation, and CLEET Peace Officer certification exam.
  - List the indirect measures (see appendix): 2023 CLEET Peace Officer Certification Examination

# PART 7 Faculty Participation and Signatures

**A.** Provide the names and signatures of all full time and adjunct faculty who contributed to this report.

Faculty Name	Assessment Role	
Rob Turner	Prepared the AA	
	CJS SLR	

## **B.** Reviewed by:

## **Appendix**

### **Student Learning Outcome**

Student learning outcomes are the observable or measurable results that are expected of a student following a learning experience. Learning outcomes may address knowledge, skills, attitudes, or values that provide evidence that learning has occurred. They can apply to a specific course, a program of study, or an institution. Outcomes should be worded in language that clearly implies a measurable behavior or quality of student work. Outcomes should also include Bloom's action verbs appropriate to the skill level of learning expected of students.

### Examples:

Students will be able to apply principles of evidence-based medicine to determine clinical diagnoses and implement acceptable treatment modalities.

Students will be able to articulate cultural and socioeconomic differences and the significance of these differences for instructional planning.

#### **Assessment Measure**

An assessment measure is a tool or instrument used to gather evidence of student progress toward an established learning outcome. Every program learning outcome should have at least one appropriate assessment measure. Learning outcomes are frequently complex, however, and may require multiple measures to accurately assess student performance. Assessment plans should try to incorporate a combination of direct and indirect assessment measures. Direct provide concrete evidence of whether a student has command of a specific subject or content area, can perform a certain task, exhibits a particular skill, demonstrates a certain quality in their work, or holds a particular value. Because direct measures tap into actual student learning, it is often viewed as the preferred measure type. Indirect measures assess opinions or thoughts about the extent of a student's knowledge, skills, or attitudes. They reveal characteristics associated with learning, but they only imply that learning has occurred. Both types of measures can provide useful insight into student learning and experiences in a program. Each also has unique advantages and disadvantages in terms of the type of data and information it can provide. Examples of common direct and indirect measures are listed below.

### **Direct Measures**

- Comprehensive exams
- Class assignments
- Juried review of performances and exhibitions
- Internship or clinical evaluations
- Portfolio evaluation
- Pre/post exams
- Third-party exams such as field tests, certification exams, or licensure exams
- Senior thesis or capstone projects

## **Indirect Measures**

- Graduate exit interviews
- Focus group responses
- Job placement statistics
- Graduate school placement statistics
- Graduation and retention rates
- Student and alumni surveys that assess perceptions of the program
- Employer surveys that assess perceptions of graduates
- Honors and awards earned by students and alumni.

#### **Performance Standard**

A performance standard is a clearly-defined benchmark that establishes the minimally-acceptable level of performance expected of students for a particular measure.

### Examples:

At least 70% of students will score 70% or higher on a comprehensive final exam.

At least 75% of students will earn score a "Proficient" or higher rating on the Communicate Effectively rubric.

### **Sampling Method**

Sampling method describes the methodology used for selecting the students that were assessed for a given measure. In some cases, such as most course-embedded measures, it is possible to assess all active enrolled students. In other cases, however, it is not feasible to measure the population of all potential students. In these cases, it is important that a well-designed sampling scheme be used to ensure the sample of students measured is an unbiased representation of the overall population. Where multiple instructors teach a particular course, care should be taken to assess students across all instructors, including adjuncts.

### **Examples:**

All students enrolled in BIOL 4801 Biology Research Methods II All majors graduating in the 2016-17 academic year.

### Sample Size

Sample size is the number of students from which evidence of student learning was obtained for a given assessment measure.

#### Results

Results are an analytical summary of the findings arising from the assessment of student performance for a particular assessment measure. Typical presentation includes descriptive statistics (mean, median, range) and score frequency distributions.

### **Standard Met?**

This is a simple yes/no response that indicates whether the observed level of student performance for a particular measure meets or exceeds the established standard. An N/A may be used where circumstances prevented the department from accurately assessing a measure.

### Conclusion

The conclusion is a reflective summary and determination of the assessment results obtained for a specific learning outcome. Questions to consider in this section include the following:

- Does the assessment evidence indicate the learning outcome is being satisfactorily met?
- Where multiple measures are used for a single outcome, do the results present a consistent or contradictory pattern?
- What are the most valuable insights gained from the assessment results?
- What strengths and weaknesses in student learning do the results indicate?
- What implications are there for enhancing teaching and learning?
- How can the assessment process be improved?
