

Degree Program Student Learning Report

Revised May 2023

Department of History & Political Science

BA in History

For 2023-2024 Academic Year

PART 1

Degree Program Mission and Student Learning Outcomes

A. State the school, department, and degree program missions.

| University Mission | College Mission | Department Mission | Degree Program Mission |
|---|--|---|---|
| Our mission is to ensure students develop the skills and knowledge required to achieve professional and personal goals in dynamic local and global communities. | Central to the mission of the college is the preparation of students to achieve professional and personal goals in their respective disciplines and to enable their success in dynamic local and global communities. Our strategy is to foster an academic setting of diverse curricula that inherently incorporates an environment of service and collegiality. | The mission of the Department of History and Political Science is to support discipline-specific degree programs as well as the University's general education program. | The Bachelor of Arts Degree in History is designed to help students develop research, analytical, critical thinking, and oral and written communications skills and competencies. |

B. Align school purposes, department purposes, and program student learning outcomes with their appropriate University commitments.

| University Commitments | College Purposes | Department Purposes | Student Learning Outcomes |
|---|--|--|---|
| To provide quality associate, baccalaureate, and graduate degree opportunities and educational experiences which foster student excellence in oral and written communications, scientific reasoning and critical and creative thinking. | The college offers innovative degrees, which focus upon developing skills in oral and written communication, critical thinking, creativity, empirical and evidenced-based inquiry, experimental investigation and theoretical explanation of natural phenomena, and innovative technology. | Offers innovative and quality teaching both within the classroom and through distance education. | |
| To promote an atmosphere of academic and intellectual freedom and respect for diverse expression in an environment of physical safety that is supportive of teaching and learning. | The college educates its majors to think independently and have the knowledge, skills and vision to work in all types of situations and careers and communicate with all types of people. | Foster the skills of critical thinking, writing, research, and oral communication among our students | Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history. |
| To provide a general liberal arts education that supports specialized academic programs and prepares students for lifelong learning and service in a diverse society. | The college offers general education courses of high quality and purpose that provide a foundation for life-long learning. | Serve the University and the community through the provision of quality general education courses. | Students will demonstrate an understanding of world geography to provide the background for lifelong learning and service in a diverse society. |
| To provide students with a diverse, innovative faculty dedicated to excellence in teaching, scholarly pursuits and continuous improvement of programs. | The college fosters a community of scholars among the faculty and students of the institution. | Foster values of scholarship, creativity, appreciation of diversity, and community service among our faculty, staff, and students. | |
| To provide university-wide student services, activities and resources that complement academic programs. | | | |
| To support and strengthen student, faculty and administrative structures that promote shared governance of the institution. | | | |

| University Commitments | College Purposes | Department Purposes | Student Learning Outcomes |
|---|--|--|---------------------------|
| To promote and encourage student, faculty, staff and community interaction in a positive academic climate that creates opportunities for cultural, intellectual and personal enrichment for the University and the communities it serves. | The college fosters a community of scholars among the faculty and students of the institution. | Attract and retain high quality traditional and nontraditional students. | |

PART 2

Revisit Proposed Changes Made in Previous Assessment Cycle

Revisit each instructional/assessment change proposed in Part 5 of the degree program SLR for the preceding year. Indicate whether the proposed change was implemented and comment accordingly. Any changes the department implemented for this academic year, but which were not specifically proposed in the preceding report, should also be reported and discussed here. Please note if no changes were either proposed or implemented or this academic year.

| Proposed Change | Implemented? (Y/N) | Comments |
|---|-----------------------|--|
| The only changes made were editorial changes to the report with no impact to students or learning objectives. | Y | Changes were made to make the report more clear. |

PART 3

Response to University Assessment Committee Peer Review

The University Assessment Committee provides written feedback on departmental assessment plans through a regular peer review process. This faculty-led oversight is integral to RSU's commitment to the continuous improvement of student learning and institutional effectiveness. UAC recommendations are not compulsory and departments may implement them at their discretion. Nevertheless, respond below to each UAC recommendations from last year's peer review report. Indicate whether the recommendation was implemented and comment accordingly. Please indicate either if the UAC had no recommendations or if the program was not subject to review in the previous cycle.

| Peer Review Feedback | Implemented (Y/N) | Comments |
|----------------------|----------------------|--|
| N/A | | The program was not subject to review in the previous cycle. |

PART 4
Evidence of Student Learning

Evidence and analyze student progress for each of the student learning outcomes (same as listed in Part I B above) for the degree program. See the *Appendix* for a detailed description of each component. Note: The table below is for the first program learning outcome. Copy the table and insert it below for each additional outcome. SLO numbers should be updated accordingly.

| A. Student Learning Outcome | | | | | |
|--|--|---------------------------------------|--------------------------------------|---|--|
| SLO #1a: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history. | | | | | |
| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
| Majors will demonstrate analytical and critical thinking skills through a research paper. | At least 80% of majors will score at least “acceptable” on a four-point rubric for their paper in HIST 3243 <i>Writing and Research for Historians</i> . | All majors in HIST 3243 are included. | 21: 12 in the fall; 9 in the spring. | 91% of student earned acceptable or above on their paper. Eleven of twelve (92%) of majors in the fall scored at least acceptable on their paper. 8 students earned an excellent, 2 earned satisfactory, and 1 earned unsatisfactory. Ten of eleven (91%) of majors in the spring scored at least acceptable on their paper. 6 students earned an excellent, 2 earned satisfactory, and 1 earned an unsatisfactory. | Y |
| H. Conclusions | | | | | |
| Although fewer students are entering the university with appropriate writing skills, most are able to complete a satisfactory paper after the Writing and Research course. | | | | | |

| A. Student Learning Outcome | | | | | |
|---|--|--|---|---|----------------------------------|
| SLO #1b: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history. | | | | | |
| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
| Majors will demonstrate analytical and critical thinking skills through a research paper. | At least 80% of majors will score at least “satisfactory” on a four-point rubric for the paper in HIST 4511 <i>Senior Capstone</i> . | All majors in HIST 4511 <i>Senior Capstone</i> are included. | 12 total. 2 in the fall and 10 in the spring. | <p>10 of 12 majors (83%) scored satisfactory or higher on a six-point rubric. Four students earned an excellent, five earned a satisfactory, and three earned a marginal.</p> <p>Rubric: 1. Directly addresses main questions or issues and adds new insight to the subject not covered in lectures, readings, or class discussions. Synthesizes new information with material covered in the course. 2. Clearly states argument. 3. Provides compelling and accurate evidence that supports the thesis. 4. Considers alternate interpretations that could weaken the argument and thoughtfully responds to them. 5. Uses a wide range of academic sources. 6. Properly cites evidence in footnotes or endnotes.</p> <p>Rubric options are: Unsatisfactory, Marginal, Satisfactory, and Excellent</p> | Y |
| H. Conclusions | | | | | |
| Many students did well. Those that did not struggled with allowing an agenda to drive their research rather than allowing sources to speak for themselves, failed to locate additional resources to strengthen their thesis, or failed to take instructor direction on writing. | | | | | |

| A. Student Learning Outcome | | | | | |
|---|--|---------------------------------------|-------------------------------|---|----------------------------------|
| SLO #2: Students will demonstrate an understanding of world geography to provide the background for lifelong learning and service in a diverse society. | | | | | |
| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
| Students will demonstrate their understanding through exams in GEOG 2123 <i>World Regional Geography</i> . | At least 80% of History majors will earn at least an 80% on exams in GEOG 2123 <i>World Regional Geography</i> . | All majors in the class are included. | 14 | Twelve of fourteen students (86%) scored at least an 80% on their exams. One student scored above 70% and one student scored above a 60%. | Y |
| H. Conclusions | | | | | |
| Students improved their standards for the third year in a row and met the standard the second time in a row. | | | | | |

| A. Student Learning Outcome | | | | | |
|--|--|---------------------------------------|--|---|----------------------------------|
| SLO #3a: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history. | | | | | |
| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
| Majors will demonstrate analytical and | At least 80% of History majors will score at least | All majors in HIST 3243 are included. | 27 total: 12 in the fall; 9 in the spring. | Nineteen out of twenty-one (90%) majors earned at least an acceptable on their presentations. | Y |

Student Learning Outcome**

SLO #3a: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history.

| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
|--|---|-------------------------------|-------------------------------|--|----------------------------------|
| critical thinking skills through an oral presentation. | acceptable on an oral presentation in HIST 3243 <i>Writing and Research</i> . | | | 11 of 12 (92%) majors in the fall earned at least an acceptable on an oral presentation. 7 students out of 12 earned an excellent on the oral presentation, 2 earned a satisfactory, and 2 earned an acceptable. One student was unable to complete the class. 8 of 9 (89%) majors in the spring earned at least an acceptable rating on an oral presentation. 6 earned excellent, 2 earned satisfactory, and 1 completed with an unsatisfactory rating. | |

**H.
Conclusions**

Students appear to be improving their presentation skills though practice in other history courses.

SLO #3b: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history.

| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
|--|--|---------------------------------------|---|---|----------------------------------|
| Majors will demonstrate analytical and critical thinking | At least 80% of History majors will score at least satisfactory on a | All majors in HIST 4511 are included. | 12 total. 2 in the fall and 10 in the spring. | 10 of 12 majors (83%) scored satisfactory or higher on a five-point rubric. Four students earned an | Y |

| SLO #3b: Students will demonstrate analytical and critical thinking skills through oral presentations and papers dealing with history. | | | | | |
|---|--|--------------------|--------------------|---|-----------------------|
| B. Assessment Measure | C. Performance Standard | D. Sampling Method | E. Sample Size (n) | F. Results | G. Standard Met (Y/N) |
| skills through an oral presentation. | presentation for HIST 4511 <i>Capstone</i> . | | | excellent, five earned a satisfactory, and three earned a marginal. | |
| H. Conclusions | | | | | |
| Having students present in their upper-level history courses appears to have made them more comfortable in presenting and provided experience in creating Powerpoint slides, skills that they will almost certainly need in their future endeavors. | | | | | |

PART 5

Proposed Instructional or Assessment Changes

Learning outcomes assessment can generate actionable evidence of student performance that can be used to improve student success and institutional effectiveness. Knowledge of student strengths and weakness gained through assessment can inform faculty efforts to improve course instruction and program curriculum. Below discuss potential changes the department is considering which are aimed at improving student learning or the assessment process. Indicate which student learning outcome(s) will be affected and provide a rationale for each proposed change. These proposals will be revisited in next assessment cycle.

| Proposed Change | Applicable Learning Outcomes | Rationale and Impact |
|----------------------|------------------------------|---|
| No proposed changes. | | Students appear to be achieving the student learning objectives and the department is focused on teaching since we are down three professors in the last three years. |

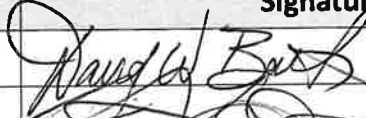

PART 6

Summary of Assessment Measures

- A. How many different assessment measures were used? Three different assessment measures were used.
- B. List the direct measures (see appendix): Writing assignments, exams, and presentations.
- C. List the indirect measures (see appendix): No indirect measures were used.

PART 7
Faculty Participation and Signatures

A. Provide the names and signatures of all full time and adjunct faculty who contributed to this report.

| Faculty Name | Assessment Role | Signature |
|-------------------|--|---|
| David W. Bath | Department representative/primary author |  |
| Michael Beauchamp | Department Review Board |  for Beauchamp |
| Paul Hatley | Department Review Board |  for Hatley |
| Carolyn Taylor | Department Review Board |  for Taylor |
| Sigismond Wilson | Department Review Board |  |

B. Reviewed by:

| Titles | Name | Signature | Date |
|-----------------|---------------|--|---------|
| Department Head | Kenneth Hicks |  | 5-30-24 |
| Dean | Susan Willis |  Susan Willis | 5-30-24 |

Appendix

Student Learning Outcome

Student learning outcomes are the observable or measurable results that are expected of a student following a learning experience. Learning outcomes may address knowledge, skills, attitudes, or values that provide evidence that learning has occurred. They can apply to a specific course, a program of study, or an institution. Outcomes should be worded in language that clearly implies a measurable behavior or quality of student work. Outcomes should also include Bloom's action verbs appropriate to the skill level of learning expected of students.

Examples:

Students will be able to apply principles of evidence-based medicine to determine clinical diagnoses and implement acceptable treatment modalities.

Students will be able to articulate cultural and socioeconomic differences and the significance of these differences for instructional planning.

Assessment Measure

An assessment measure is a tool or instrument used to gather evidence of student progress toward an established learning outcome. Every program learning outcome should have at least one appropriate assessment measure. Learning outcomes are frequently complex, however, and may require multiple measures to accurately assess student performance. Assessment plans should try to incorporate a combination of direct and indirect assessment measures. Direct provide concrete evidence of whether a student has command of a specific subject or content area, can perform a certain task, exhibits a particular skill, demonstrates a certain quality in their work, or holds a particular value. Because direct measures tap into actual student learning, it is often viewed as the preferred measure type. Indirect measures assess opinions or thoughts about the extent of a student's knowledge, skills, or attitudes. They reveal characteristics associated with learning, but they only imply that learning has occurred. Both types of measures can provide useful insight into student learning and experiences in a program. Each also has unique advantages and disadvantages in terms of the type of data and information it can provide. Examples of common direct and indirect measures are listed below.

Direct Measures

- Comprehensive exams
- Class assignments
- Juried review of performances and exhibitions
- Internship or clinical evaluations
- Portfolio evaluation
- Pre/post exams
- Third-party exams such as field tests, certification exams, or licensure exams
- Senior thesis or capstone projects

Indirect Measures

- Graduate exit interviews
- Focus group responses
- Job placement statistics
- Graduate school placement statistics
- Graduation and retention rates
- Student and alumni surveys that assess perceptions of the program
- Employer surveys that assess perceptions of graduates
- Honors and awards earned by students and alumni.

Performance Standard

A performance standard is a clearly-defined benchmark that establishes the minimally-acceptable level of performance expected of students for a particular measure.

Examples:

At least 70% of students will score 70% or higher on a comprehensive final exam.

At least 75% of students will earn score a "Proficient" or higher rating on the Communicate Effectively rubric.

Sampling Method

Sampling method describes the methodology used for selecting the students that were assessed for a given measure. In some cases, such as most course-embedded measures, it is possible to assess all active enrolled students. In other cases, however, it is not feasible to measure the population of all potential students. In these cases, it is important that a well-designed sampling scheme be used to ensure the sample of students measured is an unbiased representation of the overall population. Where multiple instructors teach a particular course, care should be taken to assess students across all instructors, including adjuncts.

Examples:

All students enrolled in BIOL 4801 Biology Research Methods II

All majors graduating in the 2016-17 academic year.

Sample Size

Sample size is the number of students from which evidence of student learning was obtained for a given assessment measure.

Results

Results are an analytical summary of the findings arising from the assessment of student performance for a particular assessment measure. Typical presentation includes descriptive statistics (mean, median, range) and score frequency distributions.

Standard Met?

This is a simple yes/no response that indicates whether the observed level of student performance for a particular measure meets or exceeds the established standard. An N/A may be used where circumstances prevented the department from accurately assessing a measure.

Conclusion

The conclusion is a reflective summary and determination of the assessment results obtained for a specific learning outcome. Questions to consider in this section include the following:

- Does the assessment evidence indicate the learning outcome is being satisfactorily met?
- Where multiple measures are used for a single outcome, do the results present a consistent or contradictory pattern?
- What are the most valuable insights gained from the assessment results?
- What strengths and weaknesses in student learning do the results indicate?
- What implications are there for enhancing teaching and learning?
- How can the assessment process be improved?

These need to be signed by everyone in the department. The attached degree assessments require your signature.

If you approve, please just reply to this email and give me permission to sign for you.

This still has to be signed by the dean and turned into Dr. Millikin by tomorrow.

If we can change one person's life, then we have affected their entire world. Let's do that!
